SUMMARY

Product-minded **Full-Stack Developer** with a strong foundation in hardware, software, and data science. Skilled in building **AI/ML**-powered applications. Highly motivated **Self-Starter** who gets things done.

U.S. permanent resident - no sponsorship required.

EDUCATION

University of Iowa - MS, Electrical & Computer Engineering **Dec. 2024**

- GPA: 3.80/4.0

University of Iowa - BS, Electrical & Computer Engineering **Dec. 2023**

- GPA: 3.51/4.0

SKILLS

Programming Languages: Python, JavaScript, Java, C++, Assembly, SQL, R

Full-Stack: React.js, Node.js, Express, Django, Spring Boot, PostgreSQL, MongoDB, Docker, Git, Linux

AI/ML: PyTorch, TensorFlow, OpenCV, Scikit-learn, Pandas, NumPy

Fully Bilingual: Mandarin Chinese, English

EXPERIENCE

Research Assistant - UT Southwestern & University of Iowa **Sep. 2024 - Mar. 2025**

- Developed AI models (CNN, ViT, GANs) that improve early detection of retinal diseases
- Created software tools for data visualization, model training, and performance evaluation
- Collaborated with ophthalmologists to validate AI models and improve patient outcomes

IT Technician - University of Iowa **Feb. 2022 - Aug. 2024**

- Managed IT inventory operations including procurement, tracking, and delivery logistics
- Maintained network infrastructure across 300+ campus buildings through signal survey
- Performed preventive maintenance on fire protection and safety systems for all 11 dorms

Teaching Assistant - University of Iowa **Jan. 2023 - May 2024**

- TA for: High Performance Computer Architecture, Communication Networks, Linear Systems I
- Led discussion sections for 200+ students, translating complex concepts into clear explanations
- Empowered students to succeed academically with personalized mentoring and leaning support

Network Engineer Intern - Casey's General Store **May 2023 - Aug. 2023**

- Analyzed network data for 2,500+ stores using Python, optimizing store connectivity
- Directed network upgrades for 40+ stores, communicating with store managers and IT teams
- Created network diagrams and installation guides, ensuring easy deployment and maintenance

Software Engineer Intern - Beijing OlymBall Tech. Dev. Co. **May 2022 - Aug. 2022**

- Built company website and interactive game demo to support marketing and user engagement
- Designed accessible, strategy-based game mechanics and contributed to product development
- Supported U.S. expansion through client coaching, material translation, and device installation
